Thank you both for the notes! I'm glad the call went well. Keep us updated on the appraisal - fingers crossed!

Let us know if anything of note comes up at your meeting. Have a great weekend!

Thanks, Matt. These look great (don't know how you took such good notes while leading the call). I would add that the congressional folks seemed to understand our position and thought it reasonable.

Subject: Pink house meeting notes

Hi Lauri and Jennifer,

Attached are notes from the call this week -- Lauri, thanks for being there, and I'd appreciate it if you could review these to make sure I accurately captured what we discussed.

Just an FYI for you both, I have another (in-person) meeting today and the same players will be represented. Most of today's meeting will focus on the Merrimack River dredging project (and the need for add'l permitting & plover monitors into April due to an unforeseen project extension), but at the tail end of the meeting we will discuss the possibility of exchanging our old headquarters facility with the city of Newburyport. The old HQ, on the north tip of Plum Island, is an eyesore and not something we have any use for; the the city and congressionals are interested in using that space for future emergency services sub-station. I expect this will come up with congressionals more as we proceed along that path.

Enjoy the snowy weekend!

Matt
