The U.S. Fish and Wildlife Service Proposes to Expand Hunting at Bayou Teche National Wildlife Refuge in St. Mary Parish, Louisiana

Hunting on national wildlife refuges (NWRs) is a tradition that dates back to the early 1900s. Today, more than 370 refuges are open to the public for hunting across the country. Here in the southeast, NWRs are a huge part of this tradition. We welcome sportswomen and sportsmen of all backgrounds and abilities to experience challenging hunting in amazing places.

The U.S. Fish and Wildlife Service (Service, USFWS) is seeking comments on the proposed hunt expansion at Bayou Teche National Wildlife Refuge (NWR) in St. Mary Parish, Louisiana; the proposal was published in the Federal Register as part of the 2024-25 Hunting and Sport Fishing Rule. The Service is proposing to make minor changes to the existing hunting program at Bayou Teche (NWR, refuge) for: (1) migratory birds (waterfowl, firearms) and (2) white-tailed deer (*Odocoileus virginianus*) with incidental take of feral hog (*Sus scrofa*) (archery). The Service recently acquired approximately 835.19 acres, known as the Mitigation Tracts, for the refuge. Under the proposal, the Service would add these 835.19 acres to the refuge's existing public hunting program as a new hunt unit to be named Mitigation Units in accordance with the 2021-22 Southeast Louisiana Refuges Complex Hunt Package (including the Bayou Teche NWR Hunting Plan and Environmental Assessment [EA] for Migratory Game Birds, Upland Game, and Big Game; USFWS 2021); the Bayou Teche NWR Comprehensive Conservation Plan (CCP) / EA / Finding of No Significant Impact (FONSI) (USFWS 2009a, 2009b); and Federal, state, local, and refuge-specific regulations. The 2021-22 Hunt Package built on and updated the refuge's hunt program and 2007 Hunt Package (USFWS 2007). The 2021-22 Hunt Package specifically included and analyzed the 835.19-acre Mitigation Tracts in anticipation of their future acquisition and inclusion in the refuge's hunt program. For clarity, since the Proposed Action only includes waterfowl hunting and archery big game hunting, lead ammunition is not included.

The 2024-25 Hunting and Sport Fishing Rule published in the Federal Register on August 2, 2024, including the proposed minor hunt program expansion at Bayou Teche NWR. To ensure consideration of your comments in the development of a final decision on this proposed action, please submit your comments prior to September 3, 2024.

Additional information is available online at the refuge's website:
<https://www.fws.gov/refuge/bayou-teche>. Please let us know if you need documents in an

alternative format. To ensure consideration of your comments in the development of final decisions, please submit comments by one of the listed methods.

The 2024-25 Hunting and Sport Fishing rule is available at the Federal Register at: <https://www.federalregister.gov/public-inspection/2024-16984/national-wildlife-refuge-system-20242025-station-specific-hunting-and-sport-fishing>.

Across the country, national wildlife refuges work closely with state and Federal agencies, Native American Tribes, local governments, non-governmental organizations, and private partners to expand access to hunting and fishing where it is compatible with refuge purposes. Hunting and fishing provide opportunities for families to enjoy the outdoors, create memories, and pass on family traditions.
