ACE has provided public notice of a revision to Jamestown S'Klallam Tribe's Dungeness Bay commercial aquaculture permit application, reducing bag operations to 20,000 bags on 5 acres (originally 80,000 bags on 20 acres) and increasing loose oyster acreage from 14 to 29 acres. This revision is consistent with recent Clallam County and WA State permitting decisions and does not change the location, or overall acreage of the requested operation.

If I had a third sentence, I'd remind folks that the County and State allow for a potential increase in bag operations after a 2 year monitoring period.

can you send me a one - two line sentence that will be used as a talking point with the RD this afternoon?

Thanks
