Good Afternoon Jennifer,

Hansi reached out to me and asked me to send you these two documents: 1) Operational Plan and 2) Monitoring and Mitigation Plan.

We submitted these documents as part of our Clallam County Shoreline permit application in February 2019. All of our project documents can be accessed through our shoreline permit application page (SHR2017-00011). However, I recognize that there is a lot of information to sift through and updated materials are not easy to track. If you have any specific questions about the project please feel free to reach out to me any time. I am happy to answer your questions and provide you with any project documents that we have prepared.

Sincerely,

Liz
