Nathan – We just found out today that the State of Washington is organizing a celebration of the water quality upgrades for Dungeness Bay either the second or third week of November.

This will be an event where the Governor's office, the WA Department of Health and the

Puget Sound Partnership will be heavily involved. What a terrific opportunity to be able to mention how well the U. S. Fish and Wildlife Service is working with the Tribe and now that we finally have shellfish upgrades we can actually grow shellfish. I'm just giving you a heads up that the upgrade is something the State wants to shine a bright light on.
