PS: not sure what happens if they issue a lease that is inconsistent with Refuge Purposes.

We are only assessing gear collection (marine debris) outside the lease boundary. Sue will be looking it over next week, but I think we will be able to find it compatible with stipulations.

We have been provided direction that commercial farming activity within the lease is outside our permitting authority, unless WADNR provides a lease that is not compatible with Refuge Purposes.

Ah yes...that one. Did you determine that it was "compatible with stipulations" or "not compatible?"

Hey there Ken! Hope you are doing well.

We'll be sending a Compatibility Determination for your review (Commercial Aquaculture Gear Surveillance and Retrieval) sometime next week. Just wanted to give you a heads up. This is related to the Dungeness Bay aquaculture lease proposal.

Hope you have a wonderful weekend.
