FYI: Liz is asking for a call regarding debris removal CD and a monitoring plan. I do not have a copy of the permit, so I am not sure if the monitoring plan is related to debris removal or bird use/disturbance. I think I can put a draft CD together with the information that I already have. I have reached out to Charlie to ask for Mig Bird assistance if the plan is related to bird impacts.

Subject: [EXTERNAL] Call to discuss Special Conditions of USACE Proffered Permit

This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.

Hello Jennifer,

I hope you are well and have been staying safe during this unprecedented year.

I am reaching out to see if we can have a quick conversation about the Initial Proffered Permit for the Tribe's oyster farm that was sent out by USACE last week. There are a couple of Special Conditions that require further coordination with U.S. Fish and Wildlife Service. One being the status of the compatibility determination per our August 2020 correspondence, and the other to develop a monitoring plan in coordination with USFWS.

I realize that you are likely working from home, so if you could let me know when would be a good time for you to have a quick call and the best number to reach you at that would be great.

Thank you,
Liz
