FYI. We should probably set a time to get together and discuss before field season is upon us. Maybe some time in February?

We just received a Shoreline Permit (SHR 2017-00011) to re-establish an oyster operation with ground bags within Dungeness Bay.

I just wanted you to know about the application & we will route the Notice of Application in a few weeks for comments.

This matter should be scheduled for a public sometime in March.

You can review the application and reports at the links below
