Can't get internet to work on this comp, working on my ipad there, but can't get to Birds of North America w/o FWS VPN. Slow going, but I've found a good resource on other ducks that feed on eelgrass or its seeds. More soon, or let me know if you have anything of more importance.

Here are a few changes to the briefing. I highlighted a few spots that might need review for readability. Working on #s now...
