Importance: High

Thank you Jennifer.

Emily / Curtis, Simply an FYI, No further action necessary at this time ...

The Jamestown S'Klallam Tribe has been seeking permits/approvals to reestablish shellfish culturing on lands that include the Dungeness NWR.

R1 and the NWR determined that a Compatibility Determination was unnecessary.

The Corps is now under pressure to move their process along (Individual CWA Permit), which will include ESA consultation ... Pam Sanguinetti is our point of contact.

My perception is that there's presently nothing to do, until the Corps contacts us with a request.

Thanks - Ryan -
