---

I have not heard anything from ACOE, Clallam County, or Tribal staff on aquaculture for several months.

WA DNR invited us to a site visit on 6/12 with Ralph Riccios (Tribal Shellfish Biologist), but I will be out of town. Lorenz will be attending.

We provided an update to stakeholders (including the Jamestown S'Klallam Tribe) on green crab removal at Dungeness NWR. Neil Harrington (Tribal Shellfish Biologist) has joined us in trapping activities on at least one occasion.

We continue to attend Dungeness River Management Team meetings which Scott Chitwood (Wildlife Program Lead) chairs.

I think that is all that I have regarding interaction with the Jamestown S'Klallam Tribe. If anything comes up in the next few days, I'll let you know.

Thanks Jennifer. Hope you're doing well.

How are things going with Jamestown S'Klallam Tribe? I'll be seeing Ron Allen next week at ATNI so even just a short update will help in case he corners me.

Wish I could have made the training at Nisqually this week. Unfortunately, neither my work or personal schedule allowed me to attend. Just wanted to let you know that I would definitely be interested in attending the same type of training if it was offered at Nisqually in the future.

Thanks,  
Jennifer
