---

Thanks for reaching out. I am available for a discussion on Monday, after 11am.

Could you share the permit conditions, so I can get a better idea of what we will be discussing?

Hope you are having a great week.

ACE permit has been proffered. Liz has asked for a call to discuss the CD and monitoring plan (below). I do not have a copy of the permit or the associated NEPA docs. The CD should be related to debris removal. This would be a good time to get Mig Birds involved to re: monitoring plan.

Hello Jennifer,

I hope you are well and have been staying safe during this unprecedented year.

I am reaching out to see if we can have a quick conversation about the Initial Proffered Permit for the Tribe's oyster farm that was sent out by USACE last week. There are a couple of Special Conditions that require further coordination with U.S. Fish and Wildlife Service. One being the status of the compatibility determination per our August 2020 correspondence, and the other to develop a monitoring plan in coordination with USFWS.

I realize that you are likely working from home, so if you could let me know when would be a good time for you to have a quick call and the best number to reach you at that would be great.

Thank you,

Liz
