**Importance:** High

---

Jennifer,

I have included the Corps archaeologist on this email so they can add to or correct my response. I recommend you have the USFWS archaeologists coordinate directly with the Corps. I understand you will need to then coordinate with the applicant, Jamestown S'Klallam Tribe, on who will actually complete the work and compile the report. The completed assessment is coordinated with all agencies involved, Tribes with interest in the area (in addition to the applicant), and the State Office of Historic Preservation.

Pam

Subject: [EXTERNAL] Cultural Resources Assessment

Pam,

I would like to get more information about what it would take for us to be the lead on 106 compliance. Could you give me the correct verbiage on the type of Cultural Resource Assessment that needs to be conducted. I want to make sure that I am using the right terminology when I speak with my Cultural Resources folks. Getting a better understanding of time and cost considerations will help further discussions with my supervisors.

Thanks,  
Jennifer
