---

Pam,

This entire project is also time sensitive for Jamestown. Why is it necessary to have Matt and Lori at the meeting?

Kelly

Kelly,

We are working on a time sensitive project that will preclude our meeting sooner on your alternative dates. I will coordinate with Matt and Lori and get back to you next week.

Pam

Pam,

March 25th will not work for Jamestown. We are available anytime this Thursday and would be willing to go to your office to discuss our application to cultivate shellfish on our existing DNR lease. If this week does not work we have March 1st, 2nd or 4th available. It is not necessary to have Jenifer at this meeting. Please let me know if Thursday or any other of the listed dates work for you.

Kelly

Good Afternoon,

To follow-up on our phone conversation last week, the Corps is proposing a meeting with Jamestown S'Klallam Tribe's natural resource staff to discuss your application to cultivate 53 acres of tidelands within Dungeness National Wildlife Refuge. Our Tribal Liaison, Lori Morris, and Section Chief, Matt Bennett will be joining me. You also suggested including the Refuge Project Leader. I have copied this email to Jennifer for her consideration.

We are available on Friday, March 25. Perhaps at 10:30 to allow us travel time.

Please let me know if this time would work for you.

Pam
