Jennifer,

Great job on capturing the agency position in the letter. We need to pare down (scrub it) the literature cited section to contain only the most relevant and most important references. Can you do this on Monday and get it back to Jeff Holm (letter plus a lit cited)?

Shoot for less than two pages of the most relevant. If the JST had a problem with the citation and you keep it in - need to note why in the email back to jeff.

Kevin

Some thoughts as you look to firm up the reference list.

Start by reviewing the jst letter and their criticisms of our letter.

maybe group all the species accounts from the Birds of North America and cite like this:

Poole, A.F. (editor) The Birds of North America. Cornell Lab of Ornithology, Ithaca, NY, USA.

(Contains species accounts for Northern Pintail, Western Sandpiper, Brant, Least Sandpiper, American Wigeon, Sanderling, Black-bellied Plover and Dunlin) <https://doi.org/10.2173/bna>

Most important to double check the recent JST letter and ensure that we are not including references that aren't related to the issue.
