Subject: [EXTERNAL] Jamestown's response to DNWR - USFWS comments
To: BrownScott, Jennifer <jennifer_brownscott@fws.gov>

Good morning Jennifer,

As part of the permit process, Jamestown is asked to respond to all comments received. USFWS comments were the most detailed and the backbone of many other comments received. As you heard in our May 1 meeting, the Tribe spent time reviewing the USFWS comments carefully. I was hopeful after that meeting that we might re-engage in dialogue, and perhaps there is still opportunity for that. Meanwhile, the Tribe has prepared and submitted our comment to the May 22, 2019 update correspondence. Here is a copy. I will send Appendix A when I am back at my desk, I think you have the others. Appendix A presents the data and figures that Liz went over with you when we met at Refuge office.
Sincerely, Hansi

Hansi Hals
