---

Hi Jennifer,

I just wanted to give you a few examples of some of the Motus towers I have worked on along the coast and an example of the data that the public can see (see attached).

I completely understand your situation at your refuge. There are many places we can install a motu site up your way, so no worries if the refuge does not work out. Just being able to get your input on potential partners is helpful.

Thanks so much for the call yesterday and am still interested in the tribe and aquaculture issue, and how that progresses, so please keep us in the loop.

Vanessa
