[Fishing, Tribal CD 2013.pdf](#)

---

The 2007 lease was issued to Jamestown S'Klallam Tribe. He is thinking of a previous lease term.

The 2013 "Fishing, Other, Tribal" CD is attached. It does not mention shellfish harvest or aquaculture.

The CD for recreational fishing does specifically mention shellfishing.

Thanks. Have amended accordingly with edits below. Frank also reviewed so going over his edits now. Two questions from Frank's edits to clarify before I finalize:

- Sentence about prior lease issued to the Tribe with closure requirements - Frank's question "My understanding without going back to look at the prior deed was that it was issued to someone else and then bought by the Tribe during the lease term. I may not have that correct, but if so, "issued to the Tribe" is incorrect. "
- For CCP reference: Wasn't there a separate CD relating to tribal treaty shellfishing/fishing in the area (not aquaculture)?

Thanks and please take care,  
Christine

Reads better for sure. Here are comments.

Statement of issue

We have only one key issue and it is access. On bottom bag cultivation as proposed does required year-round access but the point is ... it is access and disturbance during the closed period that is our issue. I think we should make it just that simple.

Background

I think you are overstating the Tribes engagement on the CCP. There was one meeting with the Tribe that was documented in the CCP but that is not engagement or helping develop the CCP. Jennifer is certain the Tribe would object to that characterization. Informed about the CCP, had a chance to comment provide input - certainly, engaged in its development - probably not.

I think we should not include recreational shellfishing as something that was addressed in the

CCP. It doesn't clarify things or help our argument and it raises questions that are more of a distraction.

The last sentence on ES and Mig Bird involvement. Not a helpful reference as ES was fine with the Tribe moving forward under a programmatic and Mig birds was only working with the Jennifer and staff in a limited capacity on the monitoring component which is the after the fact action ie - oyster farming activities are in progress. I think this sentence should be removed. Neither program has a dog in our compatibility fight.

Aside from that - all good

Charlie

Hi Charlie,

Thanks to you and Jennifer for this good work.

FYI - Attached is the latest version of the response letter per Nathan edits. I will send this forward to External Affairs for surname this morning and get it to Robyn and Hugh.

For the BP for PDD Williams, attached is a revised for a look to ensure nothing was lost. I rearranged some paragraphs and points and added a few more to encompass additional issues.

Please review by noon today so we can get this to Robyn and Hugh this afternoon for Martha.

Thanks and please take care,  
Christine
