To whom it may concern:

The dungeness spit in sequim, wa is an important and delicate habitat! Creating an oyster farm on this land will impact the ecological and cultural landscape immeasurably.

Please DO NOT ALLOW OYSTER FARMING ON THIS LAND!

This will impact the health of the marine biology, the economy of the surrounding areas, and this is permanent.

My vote for commissioner of public lands was for Hillary Franz on the promise to protect these areas. Please follow through on that promise.

Sincerely and warmly,

Beth Solan
