

ATTACHMENT E | SHORELINE CLEANUP METHODS BY SEGMENT

TABLE E.1 SUMMARY OF SHORELINE CLEANUP METHODS BY SEGMENT

Segments in bold type were not treated due to safety concerns.

Does not include segments which had no observable oil (NOO) in winter (2004-2005) and which had a no further treatment (NFT) recommendation in spring (2005). When more than one oiling category is used for a segment, the highest was put in this table.
