

that are an area source of hazardous air pollutants (HAPs).

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart DDDDDDD).

Estimated number of respondents: 1,800 (total).

Frequency of response: Quarterly, annually.

Total estimated burden: 64,100 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$7,700,000 (per year), which includes \$41,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is no change in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. There is an increase in the O&M costs from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. The capital costs were adjusted from 2010 to 2020 \$ using the CEPCI Equipment Cost Index, and the O&M costs are assumed to be 10 percent of the capital costs; therefore, there is a corresponding increase in the O&M costs.

Courtney Kerwin,

Director, Regulatory Support Division.
