Thanks Aran. I appreciate the feedback. I appreciate all the support and work you and the tribal leadership have invested which helps us incorporate questions and concerns as we move forward. I captured a few items to follow up with you about. Scott, please add any that I may have missed.

Furbearer trapping programs and measures to minimize impacts to wolves
Following up on land use restrictions in the Mexican wolf 10j rule to protect denning sites
Authorization for retaining pelts or wolf parts
Options for Designated Agents or delegated authority
Elements of a tribal management plan

I'm out of the office next week, so let Scott or I know if scheduling a follow up call later in January or in early February to discuss these or other questions that come up would be helpful.

Respectfully,

Nicole

Nicole and Scott,

I thought that was a really productive meeting and I wanted to thank you for your contributions. It's really helpful to get our questions answered and to feel supported . Our meeting with CPW yesterday didn't go off nearly as well so I'm glad how this one went. I look forward to continuing the conversations and as we move into drafting our plan and moving into the next phases of this process.

Take care,

Aran
