[RSOL Review & Surname] FR 5308 | Final Colorado Wolf 10(j), Final EIS, draft ROD, and NOA for Final EIS & ROD

Greetings, Kelly:

The subject package is now ready for your preliminary review. All of the package materials are available for your use here:

 [20230404_FR5308_Final_CO_Wolf_10j](#)

We recommend [opening these files in the Word desktop app when possible](#).

Please note: Given our extremely expedited deadline, this package is undergoing concurrent review by RSOL, R6 RO ES, R6 OLE, and Regions 1, 2, 3, and 8. In order to improve our ability to address comments and update the documents, we would appreciate that all internal users add their comments and edits in these shared documents located in this OneDrive folder.

Our [Note to Reviewer \(NTR\)](#) is pasted below for ease of reference.

As always, many thanks for your time, expertise, and ongoing support of this project. We would appreciate your preliminary feedback by July 28 and expect to deliver back to you for official HQ review and surname by August 22. Please do not hesitate to contact any of us at any time.

Sincerely,

Craig.

NOTE TO REVIEWER (NTR)

Subject:	Final Rule: Establishment of a Nonessential Experimental Population of the Gray Wolf in Colorado
Level of Controversy	High

Date Submitted:	Saturday, July 15, 2023
Prepared by:	Craig Hansen 303-236-4749
Identify DTS Assignment #:	DCN FR 5308 (Files also available on Teams)
Critical Dates (if any):	<input type="checkbox"/> Check if critical date is not applicable <input checked="" type="checkbox"/> R6 RD or DRD Surname by August 11, 2023 In order to meet the State of Colorado's gray wolf release deadline, we must transmit this package to HQ by Monday August 14, 2023 . <i>The Information Memo (IM) and Clearance Briefing Paper (CBP) provide a table of critical dates for surname by HQ and clearance by the Department.</i>
Description/ Main Message:	<p>This surname package for our final rule to establish a nonessential experimental population of the gray wolf in the State of Colorado under section 10(j) of the Endangered Species Act includes the following 14 documents:</p> <ul style="list-style-type: none"> • The final section 10(j) rule (<i>must clear DOI by November 3</i>) • A notice of availability (NOA) for the final environmental impact statement (EIS) and draft record of decision (ROD) (<i>must clear DOI by September 29</i>) • The final EIS • The draft ROD • DOI's Clearance Briefing Paper (CBP) • Information Memo (IM) for the Regional Director • DOI's Note to Reviewer (NTR) • R6's Yellow Surname Sheet for surname by the RD or DRD • List of literature cited in the final rule • Signed Intra-Service biological opinion • Outreach Materials • RSOL Concurrence • Cross-Regional Concurrence from Regions 1, 2, 3, and 8 • This NTR <p>Following the publication of our proposed rule on February 17 (88 FR 10258), and our review of public comments received during the public comment period, which closed on April 18, 2023, we have prepared a final rule to designate a nonessential experimental population (NEP) of the federally endangered gray wolf (<i>Canis lupus</i>) in Colorado under section 10(j) of the Endangered Species Act (Act). This rule would contribute to the conservation of the federally listed entity, the gray wolf in the lower-44 States, and help support the State of Colorado's voter-mandated gray wolf reintroduction program. Changes from proposed to final rule were largely minor - mostly clarifications and corrections - except for the addition of the take provision for gray wolves that may be significantly affecting ungulate populations on tribal lands ("ungulate provision"). For the final rule to become effective by December 15, we must publish the final rule by November 15, 2023.</p> <p>We have also prepared a final environmental impact statement (EIS) and draft record of decision (ROD) for this action, which we must announce in the <i>Federal Register</i> at least 30-</p>
	days before the ROD is signed. The notice of availability (NOA) for the FEIS and ROD , also included in this package, must publish no later than October 6, 2023 .
