Hey Scott,

Hope all is well. With a senate bill advancing in the Colorado Legislature and the closing of comments on the 10J yesterday, there sure has been a lot happening.

I am getting in touch to see if you'd have a quick second to discuss the timeline of the 10J and hear your thoughts around current conversations/challenges/opportunities in Colorado on this front.

Let me know if you are interested/available to chat anytime in the next couple of days. Thanks for your time here.

Matt Collins
