---

Thank you Robert,

Looking forward to our call on the 14th.

Including Joe for his awareness and how this NOA is timed with the NOA for the 10j and FEIS. We will need to discuss on how to best accomplish this for our messaging.

Hope your SUTL experience is going well,

Adam

**Subject:** Re: Wolf Scientific Collection Permit

Hi Adam,

My availability is very limited this week and next. I set up a meeting on 8/14; unfortunately Liisa wasn't available, please reschedule if we need to. My availability good for the week of 8/14.

Here's a quick summary of what I would want:

- 1) I could help create the application on our call, so we generate a permit record and number that can be published.
- 2) I need a section E. completed (I attached a copy). I can help explain this on our call.
- 3) I need a proposal from your office. This can be a brief summary of the request, no need for a large detailed proposal.
- 4) This can be in the proposal, but I would like to see a description of how we're going to manage the permit and the staff that would work under it.

The most important info I need is items 1 and 2 which will inform what gets published. I have no concerns with getting this published before 10/6. I would target having this published before the end of August.

Thanks and I can help answer questions on our call.

**Subject:** Wolf Scientific Collection Permit

Hi Robert,

Hope you are enjoying your time in southern CA.

Checking in to see about the schedule for a COFO wolf scientific collection permit. As you know, we want to publish the NOA for this permit the same time we publish the NOA for the draft ROD and FEIS on or before October 6. Would appreciate if you would lay out the to dos and schedule to issue this permit.

Sorry if you have already described this to folks.

Thanks you!

Adam
