**Kevan Plumlee**

How could the board allow this to happen? Will we hear the outcome of the private meeting at Lone Oak Church Last Night?

Like Reply 1h

**Bryan Lind**

**Kevan Plumlee** again they were told no Business. They say it was a social gathering, I say BS. Some are digging the holes deeper. There are a few that don't get it when dealing with the Government. And are assuring a bad outcome for the Association

**Bryan Lind**

Why are you using the Association name when the Federal Government told you NO Business until they give the go ahead. Stop you are only giving them more reason to say you don't listen. When they say none they mean NONE. I've had at least 50 share holders ask me why you are posting on the association page. Use your head for something other than a hat rack

Dan Trout

Perhaps this is why I never got my stickers & cards for 2023 after I paid my dues

Jennifer Hall

Dan Trout same for us. It's not just one person causing the problems. The place has been falling apart for a couple years now starting all the way up with the board.

Sherri Carney Jeralds

When did they open it to the public?? This is the first year we have not been members and I thought it was members and family only? Wow...what a shame....

I think it is terrible the way the Wildlife people have done ! So many older people and a lot of Veterans that have lost their place to fish and enjoy the outdoors ! They have no respect or feelings for these people or anyone else !

The people that were members from years back were the ones that invested time and money in making this a wonderful place to come and bring their families for a good time. Sorry fish and wildlife but all you have done to this peace of property was draw money and try your best to destroy it and I'm sad to say you accomplished what you have been trying to do for a long time.

**Vicki Dawson** Fish and Wildlife didn't screw it up. The former General Manager and his flunkies did. Read the report. Explains it very well. Can't hide crimes on Federal land and expect them to ignore it.

If anyone wants a copy of the letter that the Association received yesterday, they are giving them out at the Crab Orchard Recreation Visitor Center.

What a dirty dog SOB for doing this a week before Christmas. He knew what he was going to do the day he locked the gate and he has strung us out 3 months and then did this! He claims to be a Christian! May I remind you the Bible says "All LIARS shall have their place in the lake of fire!" Surely his Daddy taught him better but being a gov't employee has corrupted him with money and position.

Don't know anything about issue and really don't want to. Sorry about for your experience. I just did not feel it was appropriate to tell her say someone is it a Christian. My opinion is religion shouldn't be brought into something like this. No one has the right to judge anyone when it comes to religion, faith or belief. Have a nice day.

**This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.**

To Whom It May Concern:

The Executive Board of the Blue Heron Marina and Campground is requesting permission to continue with the Elections on December 8, 2020 at 7:00 pm given the uncertainty of COVID-19 and the Mitigations thereof. We recently sent out postcards asking our current members in good standing how they would like to proceed since we could not have an in-person meeting. The majority responded by going forward with all Absentee ballots. We are seeking permission to continue to go forward with the election and By-Law proposals. We would only allow our Executive Board ((b) (6) -General Manager, (b) (6) Vice General Manager/Nominee, (b) (6) (b) (6) -Treasurer/Nominee, 3 Counters: (b) (6) -Trustee/Nominee, John Watson/Nominee (b) (6) Nominee, (b) (6) Nominee and (b) (6) Nominee) to be present. The 3 counters could go to our West Room with the Ballot Box and count all votes. The windows would remain open at all times and everyone would wear a mask. The remaining people would wait outside of the Activity Center. Once they counted the votes, we could maintain a social distance in the West Room while the winners would be announced or the 3 Counters could come outside and make the announcement. We are open to any suggestions on how we can continue the election, which the Board feels as if it is in the best interest of the Association. Thank you for your time and consideration.

Sincerely,  
The Executive Board

(b) (6)

Last night around 6pm, I received a call from (b) (6) at Blue Heron Campground and Marina. She stated that she and the rest of the Board were at the facility due to a boat trailer having been stolen and wanted to know whether to call on our officers or the Sheriff's Office. I spoke with (b) (6) who said he could check it out this morning or to call the Sheriff last night. They chose to call the Sheriff's office last night and Officer (b) (6) responded.

In speaking with (b) (6) this morning to follow up, she said the trailer has "always" been there and that they were not even sure who the owner is. The name of the former caretaker came up (not sure if he is connected to this, but there is a back story regarding that specific trailer and (b) (6), but the Officer said that unless the stolen trailer was located, that nothing could be done.

I just wanted to update you and also (b) (6) regarding this incident.

Please let me know if you have additional questions or concerns.

Thanks!

Subject: Blue Heron

So remember the disgruntled caretaker who resigned earlier this year and was trying to stir things up? I received a call this morning regarding Blue Heron's board meeting last night. They're seeking our feedback/reaction, whatever you want to call it. I explained on the phone that we would most likely not get involved and that they may want to consider speaking to someone for legal advice. I said I would be happy to pass along their grievance to share with you if they wanted to type it up, so here it is.

My only concern is that this is a vendetta against the current board and if elected, we may have issues with noncompliance for the newly elected personnel. That is something the shareholders will vote about in December and is out of our control, so it is what it is. I say this because the former caretaker put me in the middle of a conversation and was not completely truthful with what he was asking/saying and was playing games with the rules. We will deal with that if we have to next year.

Anyway, I just wanted to share so you're aware of the rumblings, in case you receive any phone calls or correspondence.

Thanks & sorry to bother you with this.

To Whom It May Concern

The Blue Heron Marina and Campground held our monthly meeting last night, in which it was also By-Law proposal changes and Nominations for seats on the Board. Here is where the trouble begins. As you may already know, we employeed a gentleman by the name of (b) (6) in 2019. In the beginning of 2020, we started experiencing some issues with his employment. As the year continued and COVID-19 became known, he was constantly defying any and all rules set forth from either the directions handed to us from higher authority or from the Board itself. Once we received instruction to lock the gate, he would allow certain shareholders and users in to fish and hangout. He also began telling our shareholders and users that we had locked the gate and was creating all of the rules that had to be followed. He accused one of our Board members of lying about the situation, which led to having a split Association. He would refuse to wear a mask when he was instructed he had to when dealing with any type of customer. When confronted he would argue that it was his constitutional right not to wear one. He then continued to threaten that if he had to follow certain rules that he would just quit. He has also tried to drag some of the refuge employees into the situation. In our final meeting with him, explaining the rules, he once again threatened to quit. The Board finally accepted his resignation. Since his resignation, he has become a shareholder and a dock renter. He has been nothing but trouble since. He is constantly trying to get our current Caretaker to break the rules for him and such. One example was that after he had removed all of his belongings off of the property, he returned two months later demanding that our Caretaker allow him in to retrieve some of his tools. Our Caretaker explained to him that he could not and that he would need to speak with the General Manager. (b) (6) has never confronted the Board. Just a week or so ago, he came back out to the Association and demanded that our Caretaker get a boat trailer for one of our dock renters. Once again our Caretaker explained that he could not do that unless the dock renter asked for it, or the General Manager instructed to him to retrieve the trailer. The next morning the General Manager called the dock renter and asked if he had requested for the Association to retrieve the trailer and if he had spoke to (b) (6). The dock renter replied that he had not and had not spoken with (b) (6) at all, not even recently. At the meeting Tuesday night, (b) (6) was nominated to run for the position of Vice General Manager and a few of his closest friends were nominated as well for the Board. He is only wanting on the Board to make "heads roll" (in his own words). He also proposed a By-Law change in order to remove 90% of Board. He just doing all of this for spite due to being a disgruntled employee that did not get his way. The Board is just wanting the Administrative office to be aware of the current situation.

Attached is the proposal for By-Law change.

Sincerely,  
The Board of Blue Heron Marina and Campground
