

Fishing at Hagerman National Wildlife Refuge

Refuge lands are open sunrise to sunset

Where should I fish?

Bank fishing is common year-round along Big Mineral Creek, casting from the lake shoreline in Goode Day Use Area, along the sandy shores of Sandy Point, and from the oil pad access roads off Oil Field Road. Old livestock ponds located throughout the refuge are open from March 15 through September 30th annually.

Did you know?

Lake Texoma is one of the few lakes in America just salty enough to support naturally reproducing Striped bass populations.

What can I catch?

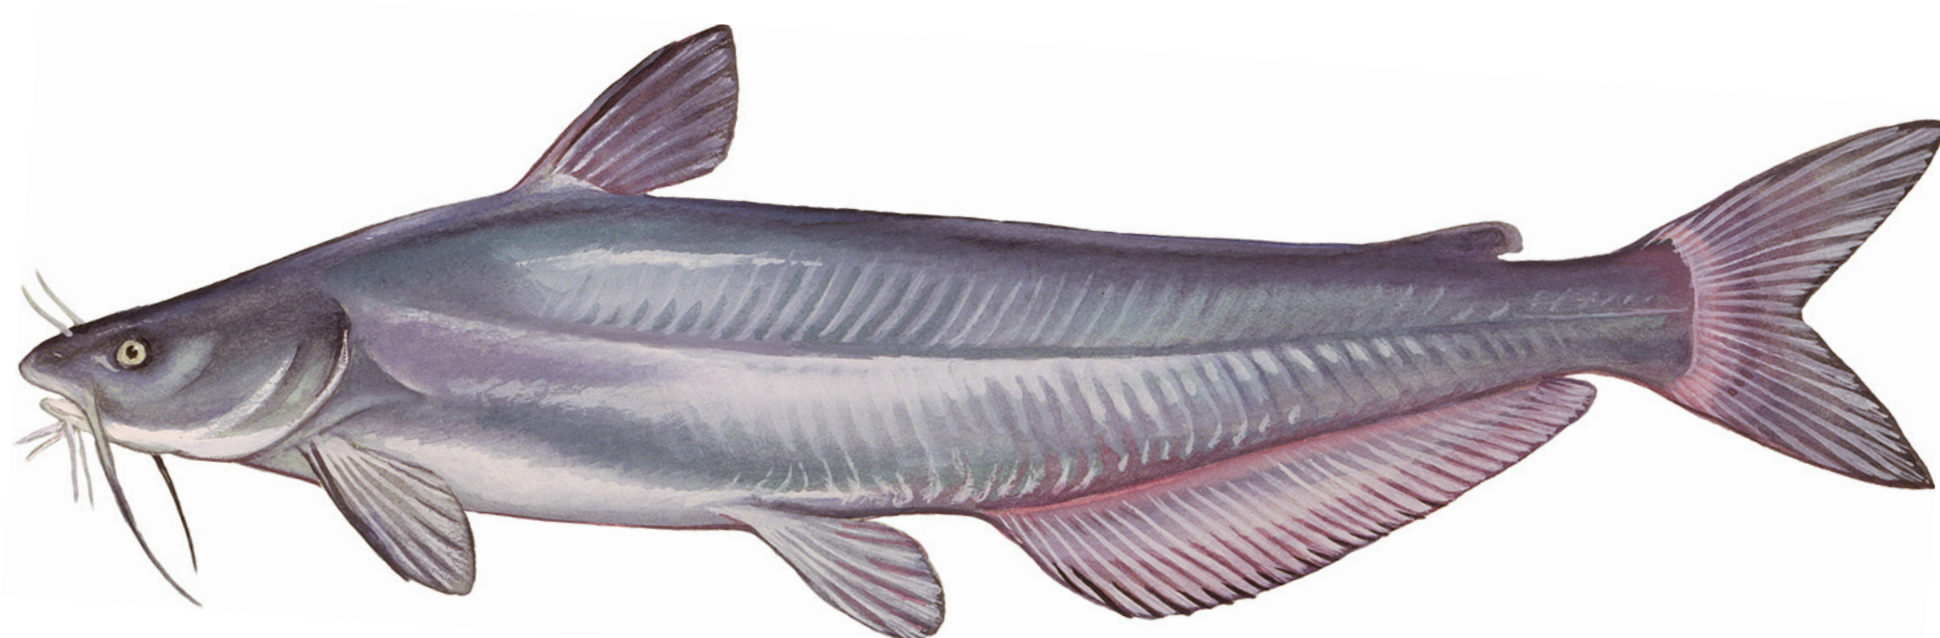

Largemouth Bass
Micropterus salmoides

Striped Bass
Morone saxatilis

Bluegill
Lepomis macrochirus

Blue Catfish
Ictalurus furcatus

Channel Catfish
Ictalurus punctatus

White Crappie
Pomoxis annularis
