JUNIOR RANGER AT HOME

Creature Features: Skulls

Follow along with Ranger Becky as we explore and learn about the differences found in animal skulls. Fill out the worksheet and send a message with your answers on Facebook @SoutheastLouisiana or email Ranger Becky at rebecca_larkins@fws.gov for a chance to win a prize!

What are the three distinct groups of animals based upon how they eat? _____

What is an adaptation?

What one adaptation on an animal skull helps the most in identifying what an animal eats? _____

What does the ORBIT or eye socket of the animal's skull determine?

Name the FOUR different types of teeth that can be found in animal skulls. (Remember not all animals have all FOUR.)

What part of the skull houses the animals sense of smell?

Remember to share your answers with us on Facebook @SoutheastLouisiana
