

Become a Southeast Louisiana National Wildlife Refuges

JUNIOR RANGER AT HOME

Wild Textures

Gear up for a walk outside and explore the textures found in nature! Next capture them with crayon rubbings...

You Will Need:

- Paper
- Crayons
- Appropriate outdoor clothing
- Your favorite adult

- 1 Look around your yard, or another outdoor space and find objects that are smooth, bumpy, rough or another texture.
- 2 Lay your paper on the textures you find. Rub the side of the crayon on the paper to see the texture appear.
- 3 Repeat crayon rubbing activity until your paper is filled with color and textures.
- 4 After returning indoors, use your texture paper to test your memory. Can you remember what natural objects created which textures on the page?
- 5 Share your textures with us on Facebook @SoutheastLouisiana
