# JUNIOR RANGER AT HOME

## TP Roll Bumble Bee

Using up a roll of toilet paper means that cardboard tube is ready to become something totally new! Follow these steps to create your own bumble bee and learn more about how to save pollinators!

### You Will Need:

1. Toilet paper roll(s)
2. Scissors
3. Stapler or glue
4. Pipe cleaner - for antenna
5. Paint or markers or crayons
6. Craft paper

**1.**

Using a marker or crayon trace the bottom of the TP Roll onto the craft paper for the bumble bee's face. Then draw a heart shape for the wings.

**2.**

Fold your pipe cleaner in half and staple or glue the pipe cleaner into the inside of the TP roll at the top. Remember to leave most of the pipe cleaner sticking out of the tube for the bee's antenna.

**3.**

Add your bumble bee's stripes with either using paint, markers or crayons. Hint if using paint: paint your darker color first and then the lighter yellow or gold for your bumble bee.

**4.**

While your TP Roll Bumble bee dries, cut out your circle and heart shapes. Add a face for your bumble bee.

**5.**

Staple or glue your bumble bee's face to the TP Roll - closest to the antenna. Then turn your heart upside down and glue or staple it to the back of your TP Roll bumble bee - fold over the pointed tip and staple or glue to the inside of TP Roll. All done!
